This report has been certified by non-profit organization the Color Universal Design Organization (CUDO) as having been designed with colors that have good legibility.

The T&D Life Group is a member of "Team Minus 6%."

The T&D Life Group practices green purchasing.

T&D Holdings believes it is important to proactively use domestic wood products in order to nurture Japanese forests. To this end, it supports the Kizukai-undo (wood use promotion campaign) sponsored by the Japanese government's Forestry Agency. This report is printed on paper produced using domestic resources, by which the company contributes to increasing the amount of CO₂ absorbed by cultivating Japan's forests.

This report was produced using FSC-certified paper, vegetable-oil-based ink, and a waterless printing process.
